

FLUCELVAX[®] QUAD

NEW ZEALAND'S FIRST CELL-BASED INFLUENZA VACCINE

Flucelvax[®] Quad is available in New Zealand for the first time this flu season, for people aged 6 months and over.

Why should I choose Flucelvax Quad?

Flucelvax Quad is designed to be an exact match to the flu strains that are circulating this year.*

Flucelvax Quad has been shown to be up to **19% more effective** than standard influenza vaccines at protecting you from the flu.

* May not predict a clinical effect

Flucelvax Quad is an unfunded vaccine and a charge will apply.

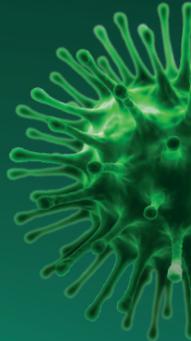

OFFERS GREATER PROTECTION

Studies showed up to 19.3% greater vaccine effectiveness from 3 US flu seasons, when compared to the standard flu vaccine. This means your chances of getting sick from flu, or going to hospital because of flu are reduced.

ESTABLISHED TOLERABILITY PROFILE

Over 216 million doses* of Flucelvax have already been given to people around the world. It has a similar tolerability profile to standard flu vaccines.

Ask your vaccinator for Flucelvax Quad.

*includes both trivalent and quadrivalent doses.

Flucelvax[®] Quad is an inactivated influenza vaccine, prepared in cell cultures. Flucelvax[®] Quad is an unfunded Prescription Medicine, charges may apply. Flucelvax[®] Quad is for the prevention of influenza in adults and children aged 6 months of age and older. Each dose contains 60 micrograms/0.5 mL of surface haemagglutinin and neuraminidase from four influenza virus strains, type A and B. Flucelvax[®] Quad has risks and benefits. Ask your healthcare professional if Flucelvax[®] Quad is right for you. Side effects include injection site reactions such as pain, redness, swelling or formation of hard lumps and bruising; muscle aches or joint pain; flu-like symptoms such as headache, fatigue, fever, chills, cough, sore throat, runny or blocked nose; nausea, vomiting, diarrhoea and loss of appetite. Serious side effects include Guillain-Barré syndrome (feeling weak, numbness and tingling in your limbs). Tell your healthcare professional if you have ever had an allergic reaction to any vaccine or to any of the listed ingredients for Flucelvax[®] Quad. If you have side effects after being given Flucelvax[®] Quad, talk to your healthcare professional.
